

BEST WAY TO BUFFALO

Lackawanna Railroad

People who like clean things and clean ways appreciate cleanliness when traveling. Lackawanna locomotives burn Anthracite coal; Lackawanna tracks are ballasted with stone; Lackawanna Pullman cars run through without change from

New York to Chicago and St. Louis

The Lackawanna Limited, a solid vestibule train with high-back seat Coaches, Dining Car, Parlor Cars, and through Pullman Sleeping Cars direct to World's Fair at St. Louis, leaves New York daily at 10 A. M., affording delightful daylight trip to Buffalo across the highlands of New Jersey, through the far-famed Delaware Water Gap, over the Pocono Mountains and along the Susquehanna River. For other trains see time table in this paper.
